

A Tool for Data Consolidation and Standardization

Karen Horodysky

2018 OFWIM Annual Meeting

Hood River, Oregon

5 November 2018

Aquatic Comprehensive Database Initiative

To provide **comprehensive** databases that will enhance aquatic **data storage, security, analysis, and sharing** for our staff and our constituents

Proposed Aquatic Databases

Coldwater Streams

Warmwater Streams

Lakes

Creel

Nongame Fish

Nongame Invertebrates

Fish Stocking & Production

Mussel Propagation

Existing CWSS Access Database

Location Data

Collection ID

Date

Collectors

Coordinates

Reach Length

Reach Width

Water Quality

Habitat

Comments

Existing CWSS Access Database

Fish Data

Collection ID

Run

Fish Code

Count

Length

Weight

Max Length

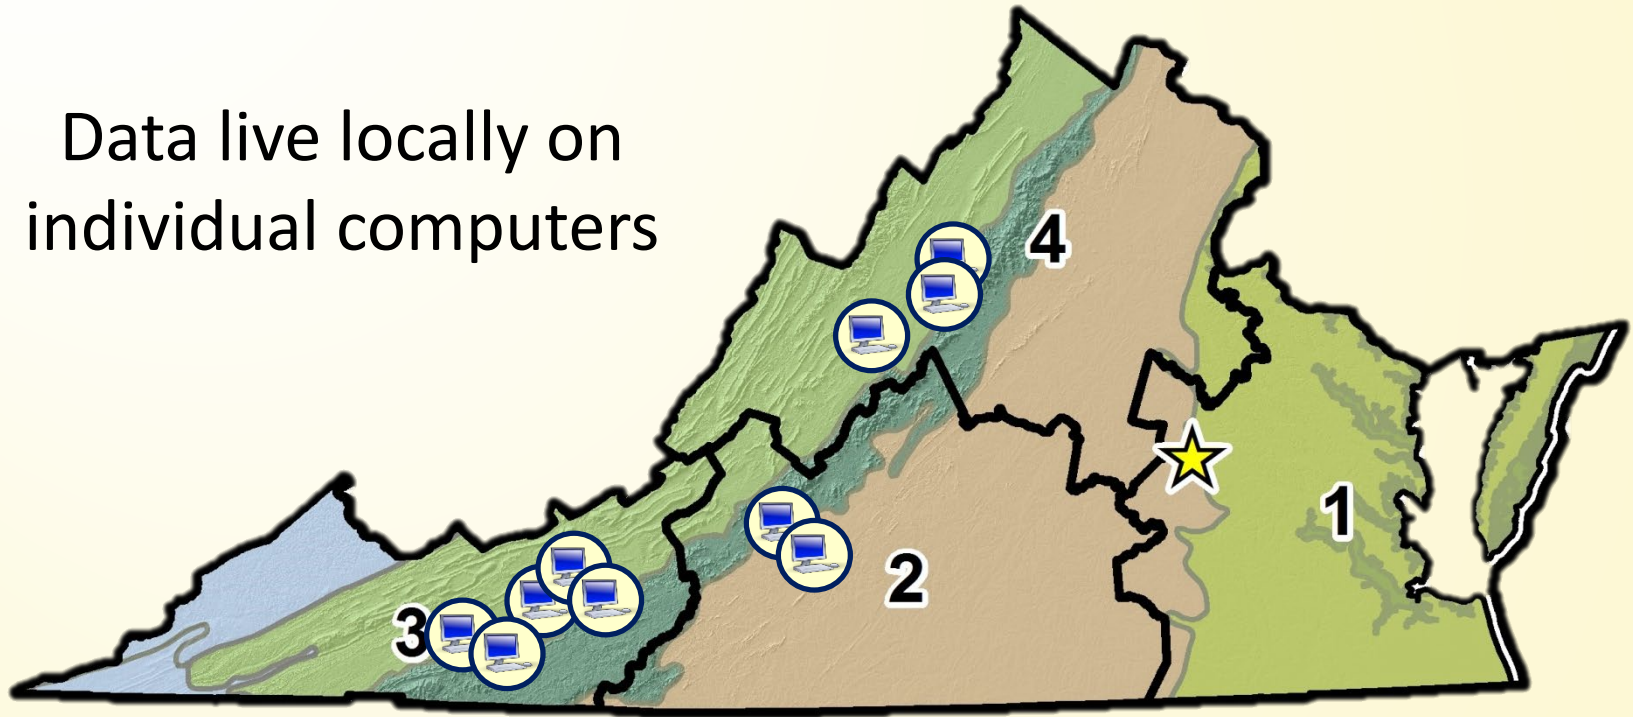

Min Length

Aggregate Weight

Existing CWSS Access Database

Data live locally on individual computers

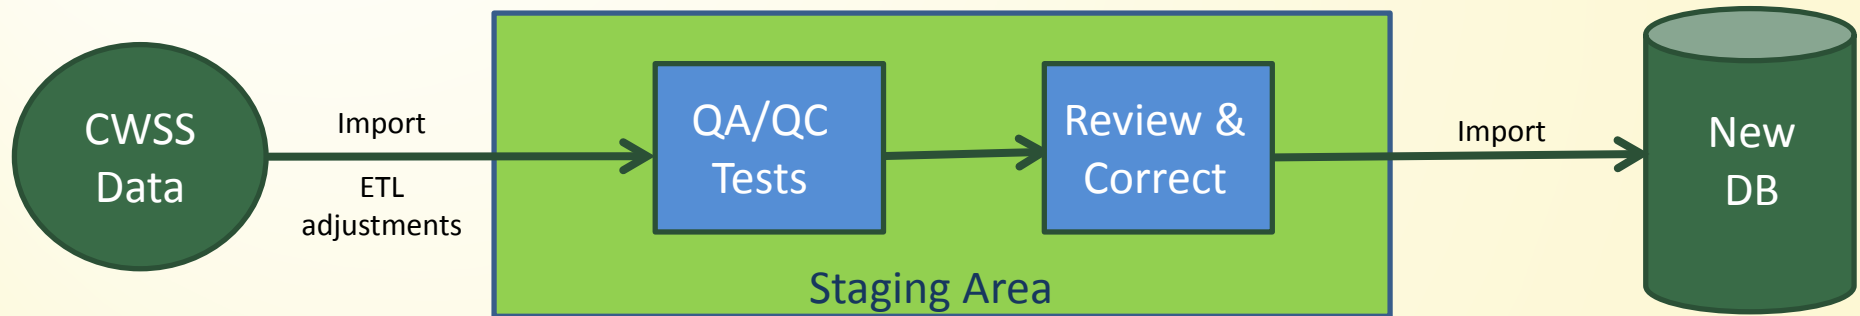

Data Consolidation & Standardization Tool

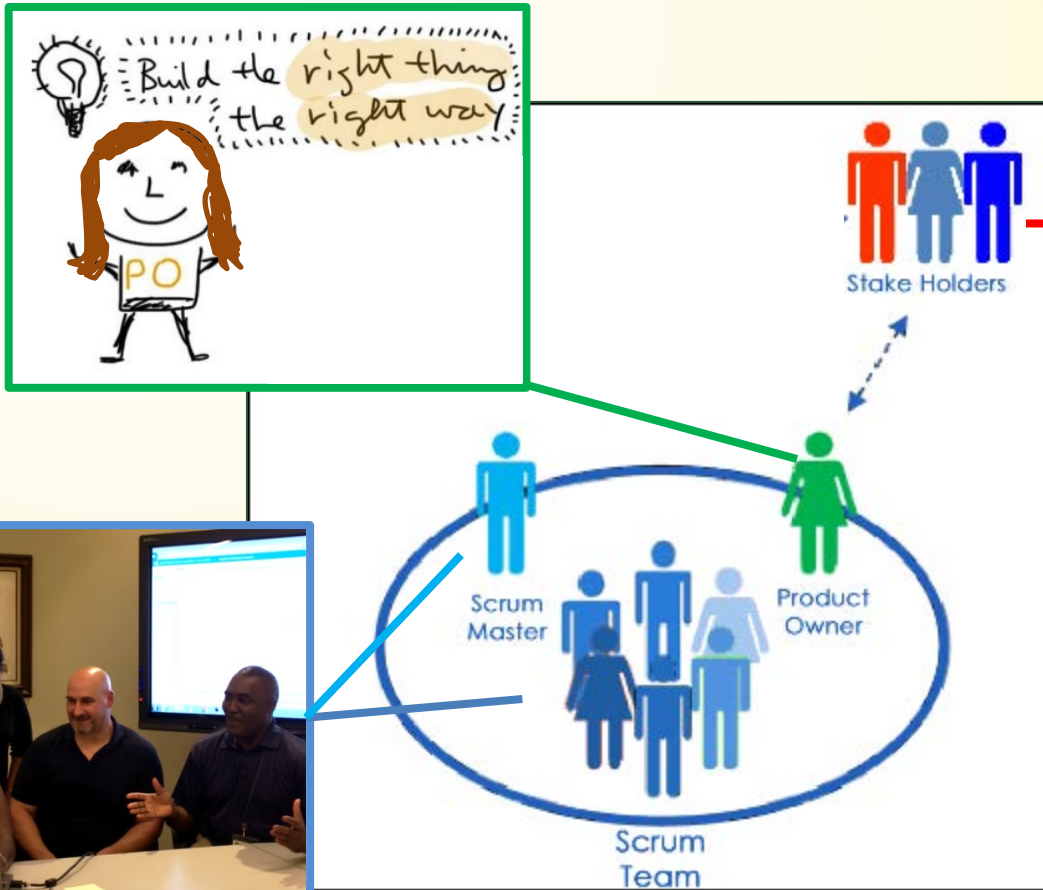

- 1. Find** the problems in existing data
- 2. Fix** the problems in existing data
- 3. Consolidate** data to database
- 4. Maintain** accountability

Data Consolidation & Standardization Tool

Agile Software Development SCRUM

Coldwater Stream Survey

Data Consolidation and Standardization

Use this tool to upload Location and FishData text files from the Access CWSS database to the web based CWSS database. Use the included tests to QA/QC and standardize data.

New Import

Test and Standardize

Export Data

Upload Data to Staging Area

Retrospective

Multitasking: "An Illusion of Progress?"

No Multitasking in Agile

- People work on one project at a time
- People work on one feature at a time
- People work on one task at a time

13

© 2013 Johanna Rothman

Scrum Way

- Multitasking makes you stupid
- Do it right the first time
- Time is Limited –Treat it that way
- Throw away business cards
- Everyone knows everything
- One meeting a day
- Half Done is not done
- Working hard makes only more work
- Do not be unreasonable
- Strive for flow

FAKE SCRUM - MULTITASKING: GIVING THE TEAM A BUILT-IN EXCUSE TO FAIL

TEAM

Retrospective

Collaboration and Teamwork

Agile Mindset for People

- Collaboration
- Trust & Transparency
- Flexibility in roles and responsibilities
- Responding to change
